Public Comments:

Maxine Appleby, So. Ontario Street expressed concern over the pollution at the end of So. Ontario. South Ontario is considered a public access area. Ms. Appleby is still looking for the complete clean up and water flow solutions to be implemented. The drain pipe seems to be part of the issue. Ms. Appleby stated that the DEC would need permission to take samples from private property. Mayor Tertinek asked if it would be ok to have the owner give a sample to test. Everyone agreed that would be the best way to do the testing. Mayor Tertinek agreed to contact the DEC on Friday to have them take a look at the situation.

Ms. Appleby also asked Attorney Williams about Katlynn Marine being an archeological sensitive area. Attorney Williams said he spoke with Nancy Herder from the NYS Office of Parks, Recreation and Historic Preservation who confirmed that Sodus Point is in fact an archeological zone but expressed that they would like to focus more with the larger projects. Attorney Williams is waiting on feedback from Ms. Herder on how this will be determined. Attorney Williams agreed to reach out to Ms. Herder for an update.
