

Sodus Point NY Planning Board

November, 2022

I am asking for your approval to erect a wooden fence at the rear of my property. The fence will not exceed 4' in height. It will be wooden and will be attractive.

Please see property drawing attached.

The fence would be from the corner of my garage to my property line (going east) approx 12' and then head toward the lake (going north) for approx 30'. Being careful to stop at the front of my house.

I'm being very careful not to obstruct or block anyone's view of the lake.

Your approval will be much appreciated.

*Thank you*

*Carl Germain*
